Education

Government Engineering College, Ujjain

October 2020 - April 2024

B.TECH CSE degree program (CGPA : 6.9)

Experience

Internship : Manga Reader Platform

Dec 2023 – Feb 2024

MongoDB, Express.js, React.js, Node.js

- Developed and deployed a Manga reader platform with an intuitive admin panel
- Collaborated closely with clients to understand requirements and deliver tailored solutions.
- Ensured optimal performance and user experience through rigorous testing and debugging.
- Received positive feedback for delivering a user-friendly Manga reading experience on diverse devices. **(Deployed: Click here!)**

Persistent Systems

June 2023-August 2023

Martian Program Trainee

Learned OOPs in Java, data structures, and algorithms **(Certificate: Click here!)**

Projects

Ecommerce Marketplace

January 2023 – March 2023

Node.JS ,React 18,Tailwind CSS, MongoDB, Express

- Spearheaded the development of an advanced e-commerce platform with essential functionalities including product lists, cart management, and secure payments.
- Utilized React 18, Tailwind CSS and Express for dynamic user experiences and
- Admin controls streamline order and product management, enhancing administrative efficiency.
- Leveraged MongoDB and Mongoose for optimized data handling and storage.

Online coding platform

November 2023 - January 2024

Node.js, React.js, Redux Toolkit, MongoDB

- Online code editor supporting Node.js, Python, and Java. User-friendly file upload and download functionality.
- Real-time code suggestions to enhance productivity.
- Multiple theme options available, including dark and light themes. **(Github: Click here!)**

Ecommerce-microservices

April 2023 - July 2023

Spring Boot

- Designed and implemented microservices architecture with Spring Boot.
- Configured API gateways for secure microservices communication.
- Implemented service discovery for dynamic load balancing.
- Managed application configurations using Spring Cloud Config Server.
- Deployed applications to cloud infrastructure for scalability. **(Github: Click here!)**

Technical Skills

Programming Languages/Tools

C++, Java , Javascript, Node.js, React.js,Express.js MongoDB ,SQL,Computer Network,DBMS
Operating system

Extracurricular

Participant, Wittyhacks 3.0 "Central India's Biggest Hackathon"

- Demonstrated problem-solving, teamwork, and innovation in a time-constrained environment, collaborating with peers to develop solutions. **(Certificate)**
